

Farmers Ending **Hunger**

Our fight against hunger begins with the farmers and ranchers who donate a portion of their harvest. Services donated by food processors and cash donations from individuals round out the mission. The additional costs of product sorting, processing, packaging materials, storage and trucking to get that food to the hungry are covered by your donations.

Dear

just Adopted an Acre in your honor.

This donation will help get fresh food from the field to the mouths of the people who need it.

Farmers Ending Hunger is committed to eliminating hunger in Oregon.

Thanks for joining us in the fight!
